SE IT Java SLB Lab Experiment Writing Instructions

Experiment No: 07

Aim: Implementation of a Java Program to demonstrate use of interface in java program.

Theory:

Interface in Java

Learn more at : <https://www.javatpoint.com/interface-in-java>

Problem Statement :

Create an interface vehicle and classes like bicycle, car, bike having common functionalities and put all the common functionalities in the interface. Classes like Bicycle, Bike, car implement all these functionalities in their own class in their own way.

Implementation : Use following implementation

[\[https://github.com/profanup/JavaSBL2023/blob/main/codes/Module3/ModuleIII_code6.java\]](https://github.com/profanup/JavaSBL2023/blob/main/codes/Module3/ModuleIII_code6.java)

Explain Code : [Explain various classes and interface in implementation]

Conclusion : Thus we have studied concept of interface in Java.
