SE IT Java SLB Lab Experiment Writing Instructions

Experiment No: 11

Aim: Understand how to work with files using Java API

Theory: [Explain how to perform file operations in Java]

Learn more at : [<https://www.javatpoint.com/file-operations-in-java>]

[Summarize the content here in 2 and ½ page]

Problem Statement :

Write a java Program to given the list of the names of the files in a directory. You have to select Java files from them. A file is a Java file if it's name ends with “.java”. For e.g. File- “Names.java” is a Java file, “FileNames.java.pdf” is not.

Implementation : Use following implementation

[https://github.com/profanup/JavaSBL2023/blob/main/codes/Module4/5_JavaFileSelector.java]

Explain Code : [Explain the code and how to execute it]

Conclusion : Thus we have understood how to work with files using Java API
